Versatile digital solutions expert with expertise in web design, software development, and team leadership. Skilled in HTML, CSS, JavaScript, Vue.js, Python, C++, and more. Experienced in project prototyping, UI/UX design, front-end development, and social media management. Strong communicator and problem-solver, with a proven ability to lead teams, collaborate cross-functionally, and deliver innovative solutions. Currently working as a Web Designer at The Three Stars and managing client social media content.

✦ EXPERIENCE

The Three Stars:

● Social Media Manager

- Content: Manage updates and social media.
- Client Relations: Consult and update clients.
- Team Collaboration: Address progress and concerns.
- Outreach: Network and create content.

● Team Lead

December 2024 - Present

- Daily Standups: Led progress check-ins, keeping students on track.
- Oversight: Ensured punctuality and task completion.
- Guidance: Provided support and fostered open communication.

● Web Designer

November 2024 - Present

- Design & Prototyping: Create wireframes, UI/UX, and responsive layouts.
- Front-End Development: Code with HTML, CSS, and JS for interactive designs.
- Collaboration & Testing: Work with teams to implement designs and fix issues.

LC Studio:

● Lecturer Assistant

October 2024 - November 2024

- Daily Standups: Led progress check-ins, keeping students on track.
- Oversight: Ensured punctuality and task completion.
- Guidance: Provided support and fostered open communication.

● Intern Developer

April 2024 - November 2024

- Self-Study: Advanced Linux, Python, and C++ skills independently.
- Collaboration: Coordinated with cross-functional teams during Scrum Week.
- Prototyping: Developed project prototypes from concepts.
- Engagement: Contributed to daily stand-ups with feedback.
- Problem-Solving: Delivered creative solutions to complex tasks.
